How to Authorize Adobe Digital Editions on a Computer

Whenever you use a new computer for borrowing eBooks from the Live-brary.com Downloads site, you will be prompted to 'Authorize' Adobe Digital Editions. To enjoy eBooks on additional computers or devices, be sure to authorize each with the same Adobe ID. You may authorize up to 6 devices.

What You Need

- Adobe Digital Editions installed on your Windows or Mac computer

Authorize a Computer

1. The first time you launch Adobe Digital Editions, the 'Adobe Digital Editions' dialog box is displayed. Select Authorize Computer.
   - If you have an Adobe ID, enter your Adobe ID and password.
   - If you do not have an Adobe ID, click Create an Adobe ID to make one on Adobe’s website. Fill in the required information and follow the steps to create an Adobe account. Once you are done, return to the 'Adobe Digital Editions' dialog box, and enter your newly-created Adobe ID and password.

2. Click Authorize. Your computer is now authorized with your Adobe ID.

If you are not prompted to authorize Adobe Digital Editions the first time you open it, you can launch the prompt from Help > Authorize Computer (as long as you have not already authorized your computer).
