

# Breaking Ground...

After years of planning, the Library undertook the largest renovation in the history of 31 Broadway. While the renovation added additional space and much needed modernization of existing space, it did not make changes to the original 1924 Broadway wing of the building.

One of the highlights of the project was the creation of a new, large Children's Room, emphasizing the important role that 31 Broadway has played, and continues to play, in educating the children of our community.
